Call for Papers

4th International Workshop on

ALGORITHMS, MODELS AND TOOLS FOR PARALLEL COMPUTING ON HETEROGENEOUS NETWORKS (HeteroPar'05)

In conjunction with
The 2005 IEEE International Conference on Cluster Computing
(Cluster 2005)

September 27 - 30, 2005
Boston, Massachusetts, USA

WORKSHOP THEME:

Networks of computers are the most common and available parallel architecture now. Unlike dedicated parallel computer systems, networks are inherently heterogeneous. They consist of diverse computers of different performances interconnected via heterogeneous network equipment providing communication links with different latencies and bandwidths. Traditional parallel algorithms and tools are aimed at homogeneous multiprocessors and cannot be efficiently used for parallel computing on heterogeneous networks. New ideas, dedicated algorithms and tools are needed to efficiently use this new type of parallel architectures. The workshop is intended to be a forum for people working on algorithms, programming languages, tools, and theoretical models aimed at efficient problem solutions on heterogeneous networks.

WORKSHOP SCOPE:

The topics to be covered include but are not limited to:
* Heterogeneous parallel programming paradigms and models;
* Languages, libraries and interfaces for different heterogeneous parallel programming models;
* Performances models and their integration into the design of efficient parallel algorithms for heterogeneous networks;
* Parallel algorithms for efficient solving problems on heterogeneous networks (numerical linear algebra, nonlinear systems, fast transforms, data mining, etc.);
* Software engineering for heterogeneous parallel systems;
* Applications on heterogeneous networks;
* Integration of parallel and distributed computing on heterogeneous networks of computers;
* Experience of porting parallel software from supercomputers to heterogeneous networks;
* Fault tolerance of parallel computations on heterogeneous networks;

- Algorithms, models and tools for high performance computing on global networks (grids).

SUBMISSION GUIDELINES:

HeteroPar'05 invites authors to submit full papers presenting original and unpublished research by May 1st, 2005. Submissions should consist of:
- A cover page with the author's full name, address, fax number and e-mail address;
- A 100-word abstract and keywords;
- A paper describing original research in no more than 25 double-spaced numbered pages using 12 point font on 8.5x11-inch pages with 1-inch margins all around;
- An optional appendix, with more details to be read/consulted at the discretion of the Program Committee.

All submissions will be reviewed by the Program Committee and outside referees. Submission will be through a web-based electronic submission system activated on the workshop web site two weeks before the submission deadline. Email or hard copy submission will be accepted only if web-submission is not possible and only after prior arrangement with the Workshop Co-Chairs.

PUBLICATION:

The workshop plans to publish the proceedings through the IEEE Computer Society Press as part of the Cluster 2005 proceedings.

WORKSHOP CO-CHAIRS:

Alexey Kalinov, Institute for System Programming, Russia (ka@ispras.ru)
Alexey Lastovetsky, University College Dublin, Ireland (Alexey.Lastovetsky@ucd.ie)
Denis Trystram, ID-IMAG, Grenoble, France (Denis.Trystram@imag.fr)

PROGRAMME COMMITTEE:

Mark Baker, University of Portsmouth, UK
Ioana Banicescu, Mississippi State University, USA
Jorge Barbosa, Faculdade de Engenharia do Porto, Portugal
Olivier Beaumont, LABRI, France
Cristina Boeres, Universidade Federal Fluminense, Brasil
Jack Dongarra, University of Tennessee, USA
Pierre-Francois Dutot, ID-IMAG, France
Domingo Gimenez, University of Murcia, Spain
Alfredo Goldman, University of Sao Paulo, Brazil
Shuichi Ichikawa, Toyohashi University of Technology, Japan
Helen Karatza, Aristotle University of Thessaloniki, Greece
Tahar Kechadi, University College Dublin, Ireland
Pierre Manneback, Faculte Polytechnique de Mons, Belgium
John Morrison, University College Cork, Ireland
Wahid Nasri, Faculte des Sciences de Tunis, Tunisia

Marcin Paprzycki, Oklahoma State University, USA
Serge Petiton, CNRS/LIFL and INRIA, France
Yves Robert, Ecole Normale Superieure de Lyon, France
Franciszek Seredynski, PJIIT and Polish Academy of Sciences, Poland
Leonel Sousa, Universidade Tecnica de Lisboa, Portugal
Roman Wyrzykowski, Technical University of Czestochowa, Poland

IMPORTANT DATES:

May 1, 2005:	Paper submission due
June 13, 2005:	Notification of acceptance
July 9, 2005:	Camera-ready Papers Due
September 30, 2005:	HeteroPar'05
